200 Laser Cut Series

Kit 203
Nieuport II

Guillow's legendary WWI series all have precision laser cut balsa parts that make it a snap to assemble these historic aircraft. Each kit contains plans and instruction sheets that have set the standard in the industry for over 85 years, realistic looking water release decals, lightweight wheels, detailed plastic parts that consist of a radial engine, access panels, machine gun and pilot figure.

Each kit is packed with ample covering tissue, balancing clay, an assembled propeller and rubber thread.

These kits are the last word in scale realism for both the detail enthusiast and for those who build to fly scale WWI models.

1200 Laser Cut Series

Kit 1202
1903 Wright Flyer

On December 17, 1903 Orville and Wilbur Wright flew into history. Orville Wright made the first sustained, controlled powered flight of a heavier than air aircraft. The 1903 Wright Flyer was flown 120 feet in 12 seconds by Orville Wright. That same day Wilbur Wright flew the plane 852 feet.

This 1:20 scale build n' show display model of the 1903 Wright Flyer has been designed for easy assembly using Guillow's famous step by step building methods. Kit includes grade A precision laser cut balsa parts, high quality tissue covering, laser cut profile of pilot, simulated engine, movable propellers and a display stand with plaque.

1202 1903 Wright Flyer

24.2" wing span (61.47 cm) - Scale: 1/20th - Build Time: 30+ hours
